

READY TO USE

FLOOR CLEANER

SHINY FLOORS, SLIDING SOCKS

Naturemade® Floor Cleaner is an environmentally responsible floor cleaner suitable for cleaning a variety of hard floor surfaces, while maintaining the shine of polished floors. Its biodegradable formula makes it tough on spots but not on the environment, and can also be used to maintain walls and ceilings.

- Cleans and deodorises
- Maintains sheen of polished floors
- Biodegradable
- Cost effective

Directions:

For floors, walls and ceilings, add 125ml of Floor Cleaner to 5L of water and wet mop as usual. For polished floors, add 70ml to 5L of water. May also be used as a "buffer" for all floors by lightly spraying a 1% solution to the surfaces before buffing.

All toiletry products have an effect on the environment. Always use the correct dose for maximum efficiency and minimum environmental impact.
